

"We've been using Hycomp nitrogen boosters for over 10 years. We run 6 days a week, 20 hours a day. We haven't had to worry about the system contaminating our equipment or our product. As a result, we've purchased two more systems, one in 2010 and another in 2013.

"We would highly recommend Hycomp to other metal fabricators who depend on continuous pure nitrogen to operate."
